

The CIW Web Security series is for those who configure, manage and deploy e-business solutions servers, and implement e-business and network security solutions. This series offers three levels of credential to recognize the achievements of those who have also attained levels of proficiency in networking administration and now want to validate and prove their competencies in security.

CIW Web Security candidates must meet the following requirements:

1. Pass one required CIW exam.
2. Complete the CIW Certification Agreement (by logging into the CIW Candidate Information Center).
3. Submit proof of one valid networking administration certification from an approved vendor.*

CIW Web Security Certification	CIW Exam ID	Additional Requirements
CIW Web Security Associate	1D0-571	None
CIW Web Security Specialist	1D0-571	One certification from the following list
CIW Web Security Professional	1D0-571	Two certifications from the following list
