CIW Pre-Assessment (online)

We offer an online pre-assessment test that mirrors the number of questions and distribution of exam objectives covered on the high-stakes CIW certification exam. The CIW Pre-Assessment helps students determine their existing skill levels and their preparedness to take the CIW training courses. It also helps identify knowledge areas in which students need to focus their studies in order to pass the certification exam.

The CIW Pre-Assessment allows students to:
- Practice time management, because the test’s time limit mirrors the certification exam’s time limit
- Exit the test at any time (they must start over on their next attempt)
- Skip a question, flag it for review and return to it later
- Review all answers before getting the final score
- See which questions they missed, with correct answers and explanations
- Repeat the test as many times as needed within the subscription period
- See their scores in My Progress at the top of the page
